**DECLARATION**

1. I understand that ultimately the burden of any expense incurred in evacuation and repatriation procedures will be borne by me and that it is my responsibility to pay any costs incurred in respect of any evacuation or for medical treatment. I am fully aware of the implications involved in arranging my own travel insurance and understand the limitations and exclusions of my policy.
2. I am aware that under certain circumstances, the KE trip leader (or local agent, if no western leader) will instigate rescue proceedings via helicopter or any other means necessary in situations of medical emergency without first contacting the insurance company for their approval. I authorise KE Adventure Travel to instigate rescue and/or helicopter evacuation procedures without previously obtaining the permission of the company who issued my insurance policy.
