Introduction

This 15-day cruise to Antarctica is aboard the MS Expedition which is uniquely equipped to meet the demands of cruising in polar regions. This itinerary is similar to the 'Antarctica Classic' & 'Antarctica in Depth' trips, except on this journey you will go further south; with the aim of 'touching' the Antarctic circle, which few of our other Antarctic cruises do. We board the boat in Ushuaia, the southernmost city on Earth, which is situated in the Argentinean part of Tierra del Fuego. Our journey takes us through the Drake Passage to the so-called Antarctic Convergence, where colliding cold and warm waters force nutrients to the surface, attracting seabirds and whales, and giving us our first glimpses of Antarctic wildlife. Further south, we reach the South Shetland Islands and cross the Bransfield Strait to reach the Antarctic Peninsula.

Here we enter a world of immense scale and visual splendour, the last true wilderness on earth. Huge blue icebergs calmly floating in the waters, massive penguin rookeries, seabirds diving and whales breaching. Zodiac excursions are guided by the expert expedition staff and there are opportunities for kayaking and also to camp for a night on the Antarctic Peninsula. Built for the Southern Ocean the MS Expedition is a sturdy ship with a passenger capacity of just over one hundred. With its dining areas, presentation rooms, different cabin sizes, mud room and viewing decks you will have plenty of space and entertainment whilst on board. Each day there are presentations and informative talks from the staff on the wildlife, history and environment of the area. After 6 days around the peninsula, we return through the Drake Passage with magical memories of an enchanted world.

Is this holiday for you?

This is principally a touring, sightseeing and wildlife viewing holiday, with minimal exertion required - it is graded easy. If you choose to go ashore, you will need to make the transfers from the ship to a Zodiac and onto land. Short walks on the Antarctic Peninsula are optional and weather dependent. You should also consider that some of the classes of accommodation involve the use of bunk-beds. Whilst on deck or during excursions, you need to be prepared for cold temperatures. The itinerary remains flexible, according to the variability of the weather and sea conditions at these southerly latitudes. A suggested itinerary for the holiday is given, but may be subject to change.

On certain departures you can book kayaking, experience is essential for these kayaking excursions. A

night camping on Antarctica is also possible. All equipment is provided for kayaking and camping. Early booking is essential. Cabin upgrades are also available.

Please see our [online Polar Guide](#) for the differences between our departures, ships and more Polar information.

This is the time to familiarise ourselves with the ship and its routines. There are several common areas including the lounge, dining hall, library, presentation room where we meet our guides, ship's crew and expedition staff. We will also begin lectures and information sessions to learn about everything from local wildlife to geology to history of the Antarctic region. The MS Expedition has one of the highest ratios of expedition team members to guests - with one expert for every ten guests there is always someone on hand to answer questions and provide greater insight and appreciation of the world at its extremes. The expedition team is comprised of professional and highly skilled historians, marine biologists, and naturalists who offer keen insight and a unique personal perspective to each and every adventure.

DAY 7**Exploration of the Antarctic Peninsula and South Shetland Islands.**

We experience some of the most unique wildlife viewing and inspiring scenery in the world while setting foot on the Antarctic continent. We attempt two shore landings per day, but the itinerary and daily schedule will be based on the local weather and ice conditions. The whole area teems with wildlife activity - Gentoo, Chinstrap and Adelie penguin rookeries with their fast-growing chicks, Orca, Humpback and Minke whales are seen, Weddell, Crabeater and Leopard seals haul out onto ice floes and beaches, and numerous albatross and other seabirds trail in our wake.

With a close eye on weather conditions, set off southward along the western coast of the Antarctic Peninsula. Passing colossal icebergs and countless colonies of penguins, push on with the goal in mind - crossing the Antarctic Polar Circle. Few travelers have ventured this far south, but with our fully equipped ice-strengthened vessel and favourable sea conditions, the Expedition can access many remote locations other ships just can't reach.

Extensions

When booking your holiday, you will be able to 'add an extension option'. Once we have received your booking we will contact you to discuss additional services required for the extension and to take any additional deposit.

Antarctic Camping Excursion

On the day of the camping expedition dinner will be served onboard - eat heartily as there will be no personal snacks allowed onshore as per IAATO regulations. After dinner you will go by Zodiac to the campsite and after setting up camp for the evening, you will have time to explore the area and enjoy the Antarctic evening. The following morning, wake up time will be about an hour before ship's breakfast, allowing time to collect and stow our equipment before journeying back to the ship by zodiac.

Previous camping experience is not necessary, but members of the camping group will be asked to help put up tents under the instruction of the expedition leader. As we are in a ecologically sensitive environment, we ask that members of the group, follow closely the instructions of the expedition leader in order to minimize impacts, and ensure that we at all times, meet and exceed IAATO regulations. Safety is always paramount. Each camping expedition is restricted to a maximum of 20 campers and will be accompanied by a minimum of two experienced Expedition Staff members.

Communication with the ship will be maintained throughout the excursion and we carry emergency rations in the event that our schedule becomes extended as a result of weather conditions. Accommodation on the camping expedition is twin-share. Single travellers will be paired with other single travellers of the same sex.

Sea Kayaking - Quest for the Antarctic Circle

Going eye to eye with an inquisitive whale is a rare and special moment that will carve itself into your memory. Kayaking isn't just an outdoor adventure, it's an opportunity to experience these remote regions from another vantage point. You'll venture out to sheltered bays and areas known for calmer waters and take part in group kayaking trips led by our experienced and skilled leaders. No other activity gets you as close to the natural environment!

Kayaking excursions are dependent on weather but the team will aim to get you out in the Kayaks as many times as possible during the cruise. Previous kayaking experience is strongly recommended. You do not need to know how to roll a kayak or do a self-rescue. Professional guides will be on board to help you with new skills or to offer coaching to improve your paddling performance.

It is essential to book early for this experience - you can not book this once on board and spaces are very limited.

The wind will be a significant moderating factor and you must come prepared for 'real feel' temperatures as low as -20°C. The Antarctic is technically classed as a desert averaging 166 mm of precipitation per year. Although you are unlikely to experience any precipitation storms do occur.

Travel Aware

As a reputable tour operator, KE supports the British Foreign, Commonwealth and Development Office's '[Travel Aware](#)' campaign to enable British citizens to prepare for their journeys overseas. The 'Travel Aware' website provides a single, authoritative source of advice for all kinds of travellers and we recommend that prior to travel, all KE clients visit the official UK Government website at travelaware.campaign.gov.uk and read the FCDO Travel Advice for their chosen destination. North Americans can also check out the U.S. Department of State website: www.travel.state.gov for essential travel advice and tips.

KE treat the safety and security of all clients as the most important aspect of any trip we organise. We would not run any trip that we did not consider reasonably safe. Should the FCDO advise against travel for any reason, we will contact everyone booked to travel to discuss the situation. We receive regular updates direct from the FCDO and are in constant touch with our contacts on the ground. If you have any questions about government travel advice, please call our office.

When taking out insurance please ensure the policy you choose covers you for the activities and altitude included in your itinerary.
