Introduction

This winter activity holiday offers a true taste of winter and an introduction to a variety of thrilling snow-based pastimes, right in the heart of East Finland's frozen wonderland. Our base consists of a series of small, cosy wooden cabins in a little-visited area close to the border with Russia and just south of the Arctic Circle. Throughout the winter months, this area of Finland is almost completely snowbound, but our comfortable cabins and their sauna ensure that we stay warm and comfortable.

The holiday begins with an introduction to cross-country skiing and a chance to explore the area surrounding our accommodation, a magical white wilderness of snow-blanketed spruce and pine forest, ridges, and frozen lakes. Over the next two days, we venture out on an exciting mini snowshoe expedition with an overnight wilderness experience at a remote, candle-lit cabin featuring a traditional wood-fired sauna.

At this remote cabin, where there is no electricity and little light pollution, we may be lucky enough to see the northern lights illuminating the night sky. During the week, we will also spend a day practicing winter survival skills and building our own igloos. We conclude with a day getting to grips with perhaps the most exciting method of Arctic transport—the husky sled. We will spend a day at a husky farm learning how to drive the sleds, getting to know our own team of husky dogs, and learning about how they are cared for. This multi-activity holiday also includes a free day when we can make use of the cabin's snowshoe and cross-country ski equipment, hire fat bikes, or take advantage of some of the optional winter activities available in the area, such as snowmobiling.

Is this holiday for you?

This multi-activity winter holiday in Finland is perfect for those looking to try out a range of winter sports, and no previous experience is necessary; instruction and equipment are provided. Certain activities may take a little while to get used to, so a sense of balance, humor, and adventure are helpful! A reasonable level of fitness is essential, especially for the overnight snowshoe adventure, where we can expect to be snowshoeing off-trail through wonderful soft, powdery snow—which is more physically tiring than walking, especially if you are at the front helping to break the trail. The day-to-day order of activities during the week may change; any changes will be communicated to you by the guide on the morning of Day 2. You will experience low temperatures outside on this holiday (special thermal clothing and footwear can be hired), but our cabin accommodation will always be warm and cozy.

Itinerary

Version: WAF Finland - Winter Activity Week

DAY 1

Meet at Kuusamo Airport and transfer to our cabins at Kylmäluoma. A single timed transfer is provided.

The group will meet at Kuusamo Airport in the evening where our guide or representative will be waiting for us. Together we will make the 45min transfer to our wooden cabin accommodation at Kylmäluoma. This collection of comfortable, snow-blanketed cabins will be our base for the next three nights.

DAY 2

Introduction to cross-country/Nordic skiing.

On the morning of our first full day we will have a briefing from our guide on the activities and the order of the itinerary for the upcoming week. This is also the perfect time to discuss and make arrangements for any optional activities we may want to take part in on our free day. Today we will enjoy an introduction to cross country skiing, one of the most popular pastimes in Finland. No prior experience is necessary and all equipment will be supplied. Our guide will talk us through the equipment and will teach us the basic technique before we head out onto the forest trails to test our skills. We will ski through the taiga (boreal forest) and out across a frozen, snow covered, lake before returning to our cabin accommodation. Reindeer are a very common sight in the area, and we'll be sure to spot their tracks if not the animals themselves.

DAY 3

Day one of our overnight snowshoe adventure. Overnight wilderness cabin with traditional wood-fired sauna.

A real adventure awaits us today as we set off on an overnight snowshoeing expedition to a remote wilderness cabin where we will sleep for the night. Our guide will give a short introduction to the equipment and some tips on the best snowshoeing method before we depart. Our 'off piste' trail will lead us up through beautiful snow covered pine, spruce and birch forest. We'll stop for a picnic lunch around an open fire along the way. In the afternoon you will arrive at the Hukantupa wilderness cabin, our home for the night. There's no electricity in the cabin, it is heated by a wood-burning stove and lit by candle light, guaranteeing a cosy atmosphere. Water must be fetched from an outdoor well. It is said that there's nothing more Finnish than sauna, and tonight we can take the opportunity to relax in the cabin's own steaming hot, wood fired sauna.

DAY 4

Day two of our snowshoe expedition. Return through the forest to our cabin base by snowshoe.

After breakfast at our wilderness cabin, we strap our snowshoes back on and head out across the snow covered, forested, ridges and frozen lakes back towards our cabin base. The Taiga (boreal forest) is home to many shy animals such as elks, lynxes and hares and we may be lucky enough to spot some of these animals, or at least their tracks, today. In the afternoon we arrive back at our cabin base with time to relax and freshen up before dinner.

DAY 5

A day of winter skills including igloo building.

Today we spend a day learning some winter survival skills. Armed with spades and shovels, we will also build our own igloos/snow shelters. Igloos take several days to prepare and build, so we will actually have been putting in a little of the ground work each afternoon leading up to the build, preparing piles of snow so that they can harden and digging the foundations. Tonight we can choose to sleep in our cabins or bed down in our igloos. Inside the igloos, wrapped in warm sleeping bags and lying on top of thick mattresses, we should stay nice and warm inside our very own 'Ice Hotel' - no matter how cold the

temperatures may drop outside.

DAY 6

Free day to relax, make use of the snowshoe/ski equipment, hire fat bikes or book an optional activity.

Today is a free day to relax at the cabins. The snowshoeing equipment, the cross-country ski gear and the kit for ice fishing are all free to use. The outdoor centre also hires out fat bikes, fat bikes are brilliant fun to ride in the snow, and you can be assured of a soft landing! Alternatively you can choose to take part in an off site optional activity, such as a husky or snow mobile safari. Optional activities should be discussed and booked through the guide at the start of the week and are subject to availability.

DAY 7

Husky sledding.

After breakfast visit to a husky farm located in close proximity to our cabins. On arrival at the farm, you will be greeted by the owner who will explain about the life and training of the huskies and give you a sled driving lesson, then it's off into the wilderness! You'll drive through snow-white forests and frozen lakes, enjoying the pure nature and tranquillity. Two people will share a sledge with 4-6 dogs and can take turns driving and sitting back to enjoy the ride and the scenery. We will stop to enjoy an outdoor lunch along the way. In the evening the last chance to enjoy the sauna and then a farewell dinner will be served.

Joining Arrangements & Transfers

The group will transfer together from Kuusamo Airport to our cabin accommodation on the evening of Day 1 of the Land Only itinerary.

The transfer is timed to coincide with the arrival of the Finnair flight from London Heathrow Airport.

On the last day of the Land Only itinerary, there will be a single transfer back to Kuusamo Airport only. This will be timed for the check in of the early afternoon return Finnair flight to London.

Anyone may join the group transfers by prior arrangement. Travelling as a group or on public transport saves energy.

Hotel contact details and an emergency number will be provided with your booking confirmation.

Meal Plan

All meals are included in the holiday price.

Food & Water

Breakfast is usually served around 8am and will be taken at the cabins and will consist of bread, jam (expect local jams like cloudberry and lingonberry), cheese, ham, porridge, muesli, yoghurt, coffee and tea. Lunches and dinners on most days will be served at the restaurant at the cabins. Lunch will be taken around midday and will usually be a warm and hearty soup or stew with bread. Tea, coffee, cakes and biscuits etc... will also be offered. On a couple of days we will enjoy a packed lunch, where we will eat outside seated around a fireplace. Dinner is the main meal of the day and will be served around 6.30/7pm. There is usually meat (such as reindeer) or fish (salmon, pike and perch are common), vegetables, fresh salad, bread and a dessert. You will be able to make your own hot drinks at the cabins. Beer and wine is available to purchase. Special meals are available on request. Please inform any your dietary requirements at the time of booking. Meals are carefully planned ahead of time and it is possible to cater for most dietary requirements if informed in advance.

Accommodation

We will spend 6 nights in comfortable, cosy, lakeside cabins at Kylmaluoma Outdoor Centre. Each cabin has two bunk beds/4 berths, but will be shared by just 2 people. The cabins have electricity, heating, refrigerator, kitchenette, tv, shower and toilet. Meals will be taken in the restaurant at the outdoor centre, which is a 300m walk from the cabins, on a path through the beautiful illuminated forest.

During our 2 day expedition we will stay spend 1 night at a wilderness cabin, with no electricity and heated by wood stoves. At the wilderness cabin we will sleep in non-segregated bunked rooms of up to 4 people. The toilets are in a separate building. Though showers are not available at the wilderness cabins (all water must be fetched from the well!), it will be possible to wash in the sauna. Though the bathroom facilities can appear basic, overnighing in the heart of the wilderness and staying in a traditional forest cabin, more than makes up for the lack of hotel facilities.

Accommodation at the Kylmaluoma cabins is based on twin share. If you are travelling by yourself you will be paired up with another traveller of the same sex. It is possible to arrange exclusive use of a cabin for a supplementary cost. If you are planning to extend your holiday, additional nights are also available on request.

FINNISH SAUNA

Saunas are a way of life in Finland. The sauna is considered to be a holy place where both body and soul are washed. We will have the opportunity to enjoy a sauna every evening during the tour, except on arrival night.

At the cabin base we will have use of a separate electric sauna, one for men and one for women, shared with another nearby cabin. At the wilderness cabin there is a small wood-fired sauna, which we can use in shifts. The guide will arrange 'sauna shifts', with separate times for male/female. Depending on demand it may be possible to arrange shorter private sauna sessions / washing time.

Finnish people traditionally don't sauna in mixed groups or wearing towels/swimming suits. As we will have exclusive use of the sauna during our designated shifts, if you would prefer not to fully embrace this tradition, it will be acceptable to wear swimwear or a towel.

Group Leader & Support Staff

The group will be led by a professional and qualified tour leader.

Spending Money

Approximately €100 per person should be allowed for tips, soft drinks, and miscellaneous expenses. There is no currency exchange or ATM at Kuusamo Airport and there will be no possibility to withdraw/exchange money on leaving Kuusamo. You should have the opportunity to exchange money if transitting through Helsinki Airport. There is little opportunity for spending money on this tour and all meals are included. There is a small souvenir shops at the Kylmaluoma Outdoor Centre which accepts credit cards, cash will only be needed for tips and for soft drinks/alcohol, snacks etc... beer and wine is available to purchase at the Outdoor Centre's restaurant. If you intend to book optional additional activities on the free day then you will need to budget accordingly, see Optional Activities section for further information. Optional activities can be paid for by credit card.

Guidance on Tipping

Tipping is the accepted way of saying 'thank you' to your leader. Tipping is entirely voluntary and should be dependent on good service. We recommend that you decide levels of tipping and give any tips as a group rather than from individual group members.

Snowmobiling in Finland

All participants drive the snowmobiles at their own risk. If accidental damage is caused to the snowmobile, the driver is responsible for the cost of repair up to a maximum of 800€. Liability for vehicle damage will not normally be covered by travel insurance. Participants who are driving the snowmobile must be over the age of 18yrs and possess a full driving licence, which you should carry with you. Passengers on the snowmobile do not require a driving licence.

Baggage Allowance

For this holiday you should take one piece of luggage and a daypack. For international flights please check your baggage allowance with your airline.

For the night in the wilderness cabin you will not have access to your main baggage. Overnight essentials must be packed into a smaller bag, which will be taken to the cabin by snow mobile.

Group Members

We sell this holiday in conjunction with our local operator in Finland. This enables us to gather together sufficient numbers of like-minded adventurers to get the holiday up and running quickly. For this holiday the minimum age is 14 yrs, however it is unusual to have people under 16yrs.

General Information

Preparing for your Holiday

Getting some additional exercise before coming on an active holiday makes a lot of sense. The fitter you are, after all, the more enjoyable you will find the experience.

Climate

In January, February and March day time temperatures vary between -5°C to -20°C. Cloudy skies, sunshine, cold winds and snowfall are all possible, so you should be prepared for all eventualities.

Explore International

This holiday is part of our Explore International range. Participants on these trips can book through KE or through one of our international partners. This helps us to gather together sufficient numbers of like-minded adventurers to get your holiday up and running quickly. Led by an English-speaking guide, the cosmopolitan nature of these groups can be an important part of the experience!
